The employee review

digital, fast, clear

Starting in 2026, you can prepare your employee review directly in the employee portal – paper-free. **The conversation is voluntary. If you are interested, please contact your manager.**

The form is digitally available during the review. You fill it out online, save it, and forward it directly to your manager.

Throughout the year, you can view the form and keep track of your information and goals.

With just a few clicks you can:

- Document achievements
- Assess competencies
- Set development goals
- Record training
